

**Qualification details**

C&G No: 7588-08
Complex Railway Engineering
Scheme Rail Signal Maintenance
NVQ Level 3

Section A Mandatory Units (Candidates must complete all mandatory units)

C&G No	CfRS No	Title
105	ST22	Contribute to effective working relationships
352	SE1	Interpret detailed information from technical sources for signalling engineering
353	SE3	Determine requirements for safe and access to work locations for signalling engineering
354	SE4	Use allocated resources to achieve signalling engineering requirements
355	SE6	Reinstate the work after signalling engineering activities
357	ST21	Develop yourself in the work place
358	SE11	Replace signalling components

Section B Optional Units (Candidates must complete one of the two routes below)**Route 1. Maintenance Specific (Candidates must complete all 3 units)**

C&G No	CfRS No	Title
359	SE8	Carry out planned preventative maintenance of signalling equipment
360	SE9	Adjust signalling components and equipment to meet operational requirements
361	SE10	Remove signalling components from assemblies or sub-assemblies

Route 2. Fault Finder Specific (Candidates must complete 1 unit)

C&G No	CfRS No	Title
362	SE15	Diagnose faults in signalling assets
